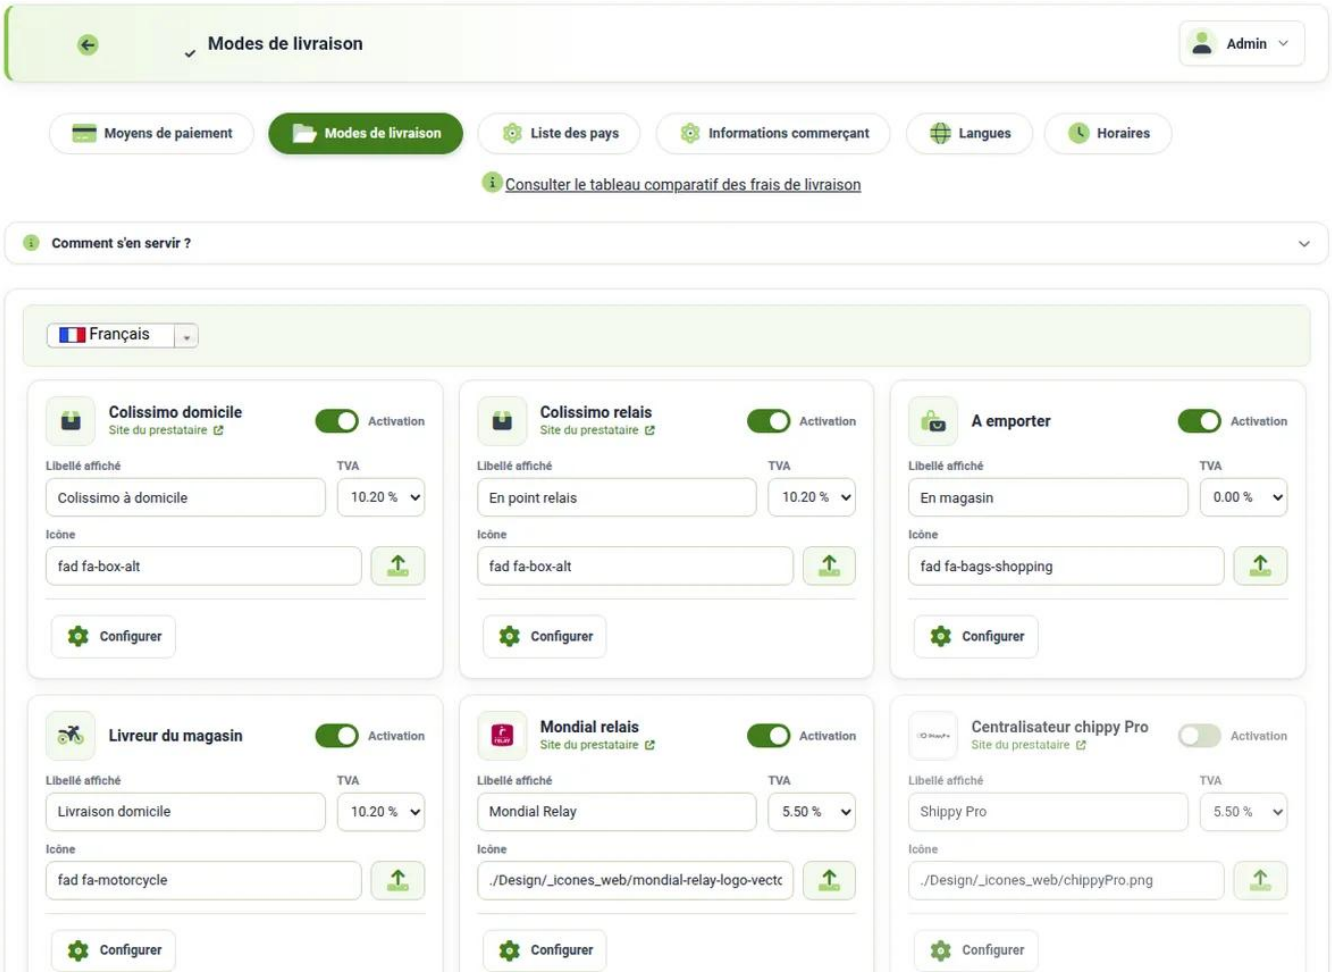
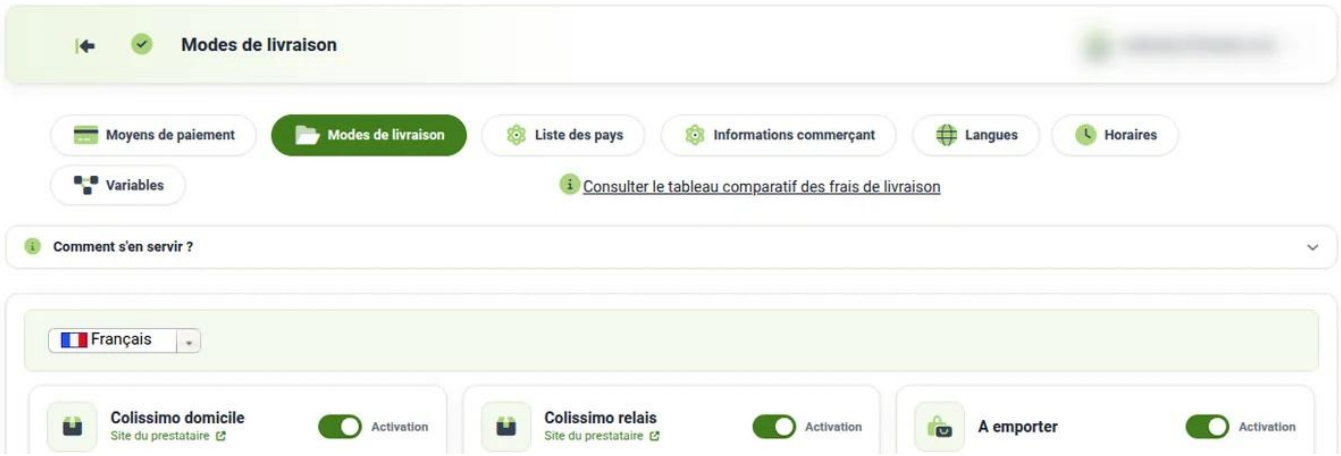
□□ Delivery Management

How do I set up delivery methods?

Open the “Options” menu and choose the “Delivery methods” tab:



Check the comparison sheet of delivery methods to review your costs:



Activate the delivery methods you want to offer your customers with the corresponding switch. You can change the label and the icon. They then appear in your shop, at the Basket / Delivery step:

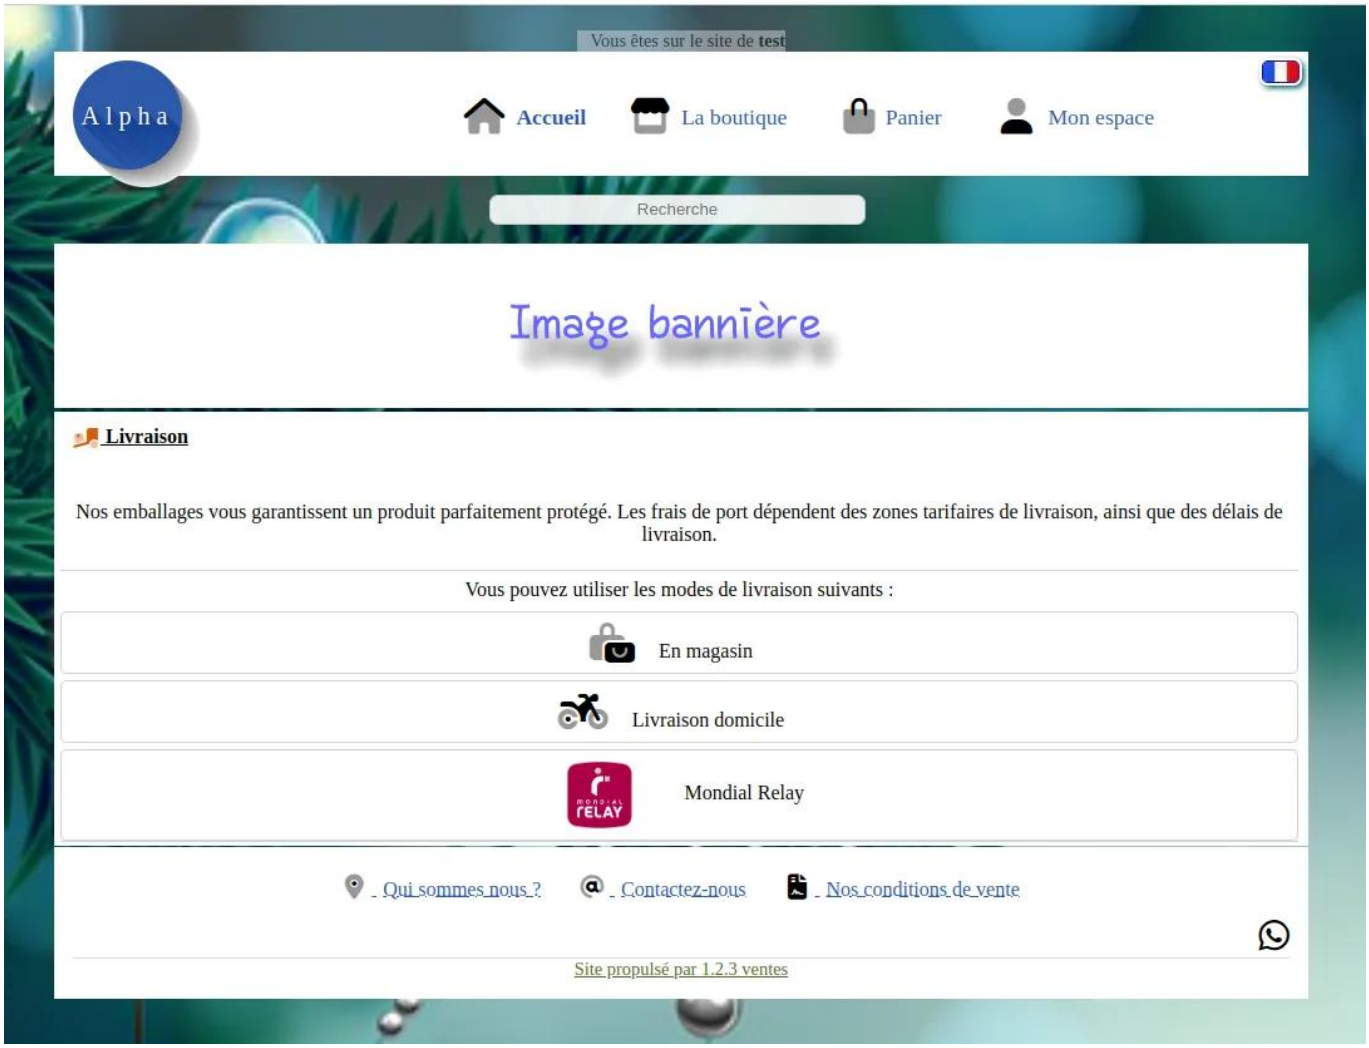
Delivery Management



For each activated delivery method, click “Configure” to enter your account details if needed. Some methods do not need an account, others do. To create an account with a carrier, follow the link provided:

Example with Colissimo: you can choose the delivery zones. A set of zones is already predefined:

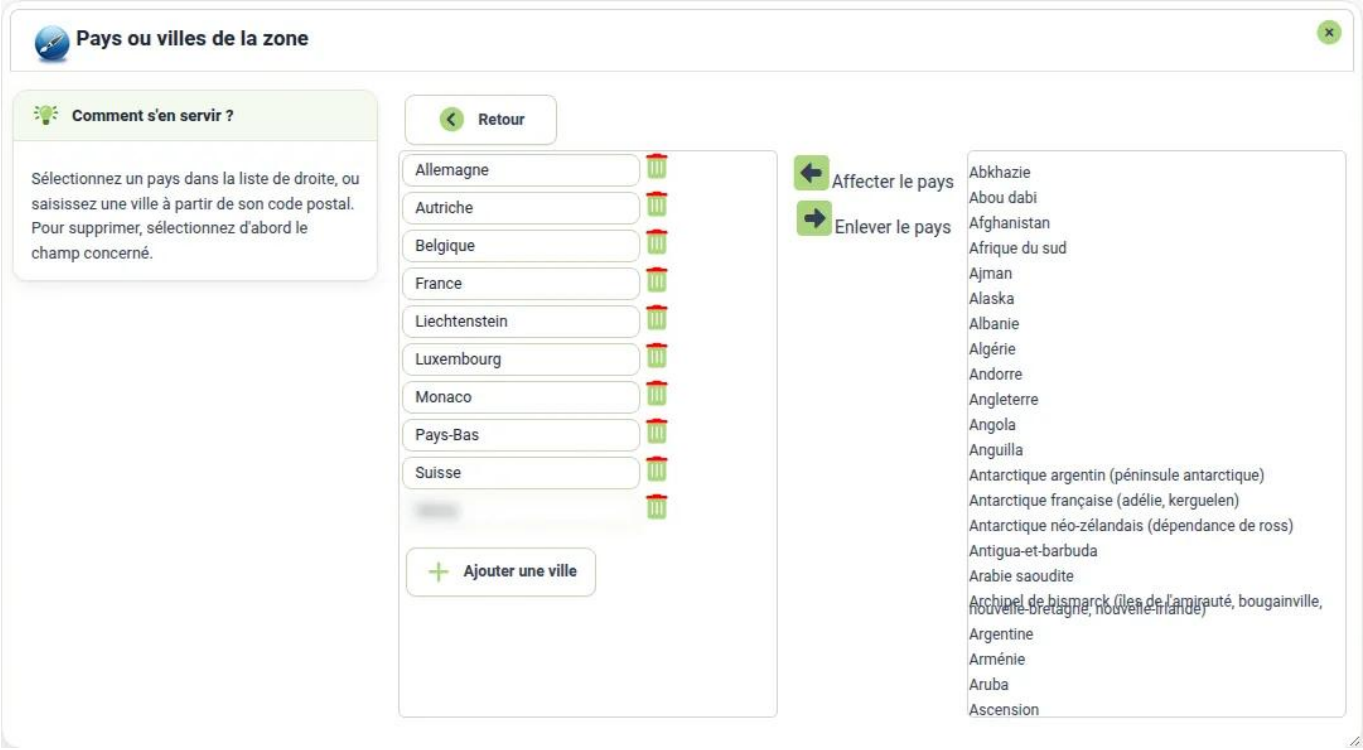
□□ Delivery Management

For each zone, you assign the countries concerned. This way you group rates by distance or by customs charges, for example.



For each zone, then enter your rates by weight band. To offer free delivery above a certain order amount, use the rules engine in the “Orders” menu.
