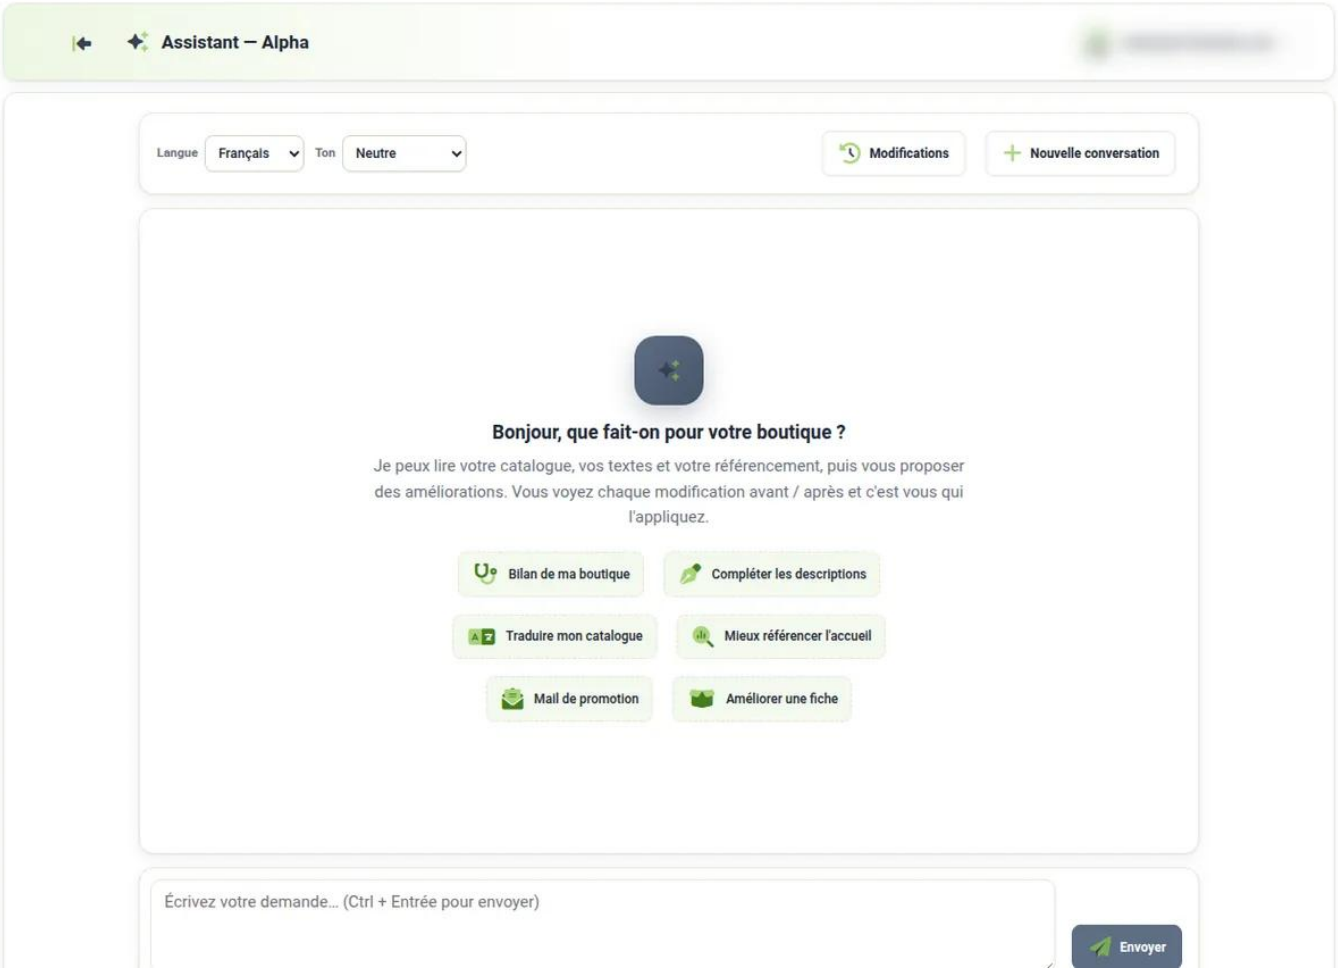
□□ Easy to Use

Is the CMS suitable for beginners?

The 123ventes CMS is specially designed for beginners.



- **No code at all** is needed;
- **ready-made templates**: layouts, home pages, colour themes;
- **an assistant** guides you step by step, and help is available on every screen;
- **a test site**: you try everything out, orders included, before opening your shop;
- **tutorials** for every major step, on the 123ventes.com website;
- **1 hour 30 minutes of free support**, by video call or by phone.

Where to start?

1. Fill in your merchant details;
2. add a few products;
3. activate a payment method and a delivery method;
4. choose your design;
5. place a test order, then publish.
